

Tractors

Parade

New category!

Zucchini

World Champs!

5 new things

What's new at this year's Fair?

1. Tractor theme It's the 125th anniversary of the first gasoline driven tractor. It was called a Burger and was also the first gasoline driven vehicle in North America. Expect LOTS of tractors!

2. Parade route to finish at the Fair We're working on the details (and looking for input). Current thoughts have the parade forming on Old Yale, then entering Fraser opposite the Community Police, along Fraser to 272nd south on 272nd to 29th then west to the parade grounds. We will reserve the school parking lot for parade floats.

Note this also means THE PARADE IS BACK IN JULY AGAIN.

3. Tractor Pull for Garden Tractors too The Tractor Pullers have a new small sled specially designed for unmodified Garden Tractors. Just drop the mower deck off and you'll be ready to enter!

4. Zucchini and Cub Car Races We are planning the world's tallest and longest Zucchini Car Race! Yes, it will be awesome with lots of opportunities for budding car builders of all ages to participate.

5. Fast Draw now WORLD CHAMPIONSHIPS It's not a misprint - the winners of this year's Aldergrove Fast Draw will be crowned World Champions! WOW!

More details to come on all these, but you can get the general idea - it's going to be amazing and a whole lot of fun!
